

AROCKIA WILFREAD

React Native Developer

+91-8015260521 | wilfread2001@gmail.com | linkedin.com/in/arockia-wilfread-j | profile-portfolio007.netlify.app

Summary

Results-driven **React Native Developer** with **3+ years of experience** designing, building, and shipping cross-platform **iOS and Android** mobile applications using **React Native, TypeScript, JavaScript, Redux, Zustand, and Expo**. Proven track record architecting scalable mobile UI infrastructure, integrating **REST/GraphQL APIs & WebSockets**, implementing **CI/CD pipelines (EAS, Fastlane)**, and publishing **6+ production apps** to the **Google Play Store and Apple App Store**. Experienced in **Agile/Scrum** environments, unit and end-to-end testing (**Jest, RNTL, Detox**), and cross-functional collaboration with design, backend, and QA teams to deliver high-performance, pixel-perfect mobile experiences.

Technical Skills

Languages: TypeScript, JavaScript (ES6+), SQL

Mobile Frameworks: React Native, Expo, React.js, Next.js, React Navigation, Android, iOS

State Management: Redux, Redux Toolkit, Zustand, Context API

APIs & Integration: REST API, GraphQL, WebSockets, Firebase, AWS Amplify, OTP/JWT Authentication

CI/CD & Deployment: EAS Build/Submit, Fastlane, Google Play Console, App Store Connect, OTA Updates, Git, GitHub, GitLab

Testing & QA: Jest, React Native Testing Library (RNTL), Detox, Unit Testing, End-to-End Testing

Specialized: Bluetooth Integration, Push Notifications (FCM), Offline-First Sync, Speech-to-Text, Reanimated 2, Hermes Engine

Tools & Databases: Postman, PgAdmin, NPM, Yarn, PostgreSQL, MongoDB, Figma, Agile/Scrum

Experience

Aaytham Consulting

06/2025 – Present

React Native Developer

Chennai, Tamil Nadu, India

- Architected cross-platform mobile UI infrastructure using **React Native** with reusable component patterns, delivering consistent **iOS/Android** UX and optimized rendering performance.
- Integrated **REST and GraphQL APIs** with **Redux/Context API** state management and secure **JWT** authentication flows for real-time political sentiment data display.
- Built and published **PlanPol Voice** and **PlanPol Booth** mobile apps to **Google Play Store and Apple App Store**, managing **EAS/Fastlane** CI/CD pipelines, OTA updates, code signing, and release deployments.
- Developed **Isihat**, a hospital management system (Next.js, Java, PostgreSQL) covering patient registration, appointment scheduling, doctor availability, billing, and medical records with role-based access control for admins, doctors, and staff.
- Implemented social sharing (X, WhatsApp, Facebook, Instagram), audio recording, **speech-to-text**, and background task processing; improved app load time by **30%** through lazy-loading and memoization.
- Wrote unit and end-to-end tests with **Jest, RNTL, and Detox** in an **Agile/Scrum** workflow, identifying and resolving performance bottlenecks to improve overall app stability by **40%**.
- Designed and enforced a scalable **folder architecture** and coding standards that reduced new developer onboarding time; collaborated cross-functionally with design teams in **Figma** to deliver pixel-perfect, animated UI using **Reanimated 2**.

Alldirectionsource Technologies Pvt. Ltd

07/2023 – 05/2025

React Native Developer

Chennai, Tamil Nadu, India

- Creadit (Data Management App):** Built with React Native, Java, and MongoDB; delivered lease administration, document management, automated workflows, analytics dashboards, and real-time alerts. Published on Google Play Store and App Store.
- Fettello (Insurance App):** Built with React Native, Node.js, and MongoDB; developed policy management, claims processing, digital e-card generation, REST API integration, and real-time data sync with an **offline-first** architecture. Published on Google Play Store and App Store.
- BookMySlot (Scheduling App):** Built with React Native, Java, and PostgreSQL; integrated **Google, Apple, and Outlook** calendar sync, push notifications, and slot-based conflict resolution logic. Published on Google Play Store and App Store.
- Medflic (Doctor App):** Built with React Native, Express.js, and MongoDB; implemented doctor discovery, appointment booking, **push notifications**, real-time chat, and electronic health records. Published on Google Play Store and App Store.
- Reduced average app bundle size by **25%** through asset optimization and **Hermes engine** adoption; built a shared component library reused across **4 production apps**, cutting UI development time by **35%**.
- Integrated **Firebase Analytics, Crashlytics, and FCM** push notifications across all apps, enabling data-driven product decisions and improving crash-free session rates to **99.2%**.

Education

VOC College of Engineering, Anna University

2018 – 2022

Bachelor of Engineering — Mechanical Engineering

CGPA: 7.55/10
